**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 10 January 2007.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 14 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Line 3, "the magazine guide" lacks antecedent basis.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 8-11, 14, and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Dimitri et al. (U.S. Patent No. 5,999,356).

Dimitri et al. '356 disclose a storage system per claimed invention. The system comprises a movable accessor 30 and a cartridge transport device 12/13/14 configured to move plurality of cartridges a long a path (Figure 1). The path includes a front side and a backside. The system comprises a controller 33 for controlling the accessor and the transport device. The controller is configured to operate the transport device to move a first group of cartridges from the front side to the backside to allow the accessing of the cartridges on the backside by the movable accessor. The accessor

Art Unit: 3651

and the cartridge transport device are capable of simultaneously operating. The accessor 30 is capable of moving closer toward the cartridges while the transport device is operating.

Dimitri et al. '356 system comprises a mounting system 43 held within an enclosure capable of supporting the transporting device (Figures 1 and 2) and a magazine 70/71/75 (Figure 4A) configured to store at least one cartridge. The magazine comprises a reference guide (any portion of the magazine that facilitates sliding or supporting engagement with external structure). The mounting system includes at least one support member (walls of the housing) and a magazine guide (bottom support of housing) attached to the support member for sliding engagement of the magazine (Figure 1). It is inherent when magazine 70/71/75 is engaged with the support and guide member, a reference edge on the magazine guide would have to be engaged with the reference guide on the magazine for proper sliding contact and support.

In regards to claim 15, Dimitri et al. '356 system comprises vertically stackable mounting systems for supporting plurality of independently operated magazine stacks (Figure 1).

***Allowable Subject Matter***

5. Claims 12 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

6. Applicant's arguments with respect to claims 1, 8-11, 14, and 15 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
